

K-Love radio is the best thing I've ever heard on the air in my area. It is basically the only radio station I ever listen to anymore as it's clean, wholesome and God centered.

I believe it would be a terrible shame if it was displaced from the airwaves and would badly effect the community I live in.

Klove has been a shining light in this city of darkness, please do all you can to keep it on the air and not hamper their broadcast
